

Financial Policy

Daniel Brengman DDS, PA
Cosmetic and Family Dentistry

Payment for services rendered is expected that same day.

Regarding dental insurance: Due to deductibles, UCR limits or other contract limitations most dental insurance plans do not cover 100% of the cost of treatment. We will estimate the amount of the insurance coverage for your treatment. The amount that is estimated to not be covered, including co-pays, and deductibles, will be due at the time of service. We will estimate as close as possible your expected insurance coverage, but we make no guarantee of actual coverage amount.

We will as a courtesy, submit and process your insurance paperwork for you. Only the amount the insurance company is estimated to pay is held current and does not start aging until we receive payment from them. If there is a portion of the estimated amount that is not covered by the insurance company you will be sent a statement for that amount.

An insurance policy is an agreement between you and your insurance company, the ultimate responsibility for all charges lies with you.

We offer a number of payment options:

- Cash
- Check
- Bank Debit Cards
- Visa, MasterCard, Discover, American Express
- Payment plans- 0% interest payment plans available through CareCredit

We offer a 5% discount when payment of the full account balance, is made at the time service, by cash or check only.

A .5% (one half percent) monthly service fee will apply to all account balances over 30 days. Should collection and/or legal services be necessary, you will be responsible for such costs. The cost for such services will be added to your account.

I understand and agree to the terms above.
